

Final Project – Rubric

Advance Java Topics and Machine Learning

PROJECT		POINTS: 55
• Data structure(s) used_____	10	
• Multiple classes ○ Driver/Client program ○ Other supporting classes	15	
• Basic comments ○ Short description of each method ○ Each class should have name of student and the description/purpose of the class	5	
• Working program ○ No errors when run. ○ Produces intended output • Result ○ Program works successfully ○ Output is readable, sensible and meaningful	10	
• README (txt, word, or pdf) (submitted) How to run, use, and interpret program output.	5	
• Submission ○ Submitted on time: _____ ○ All required files to run the project ▪ Students created programs ▪ Data (short dataset) ▪ 'Read Me' doc (with links to the external files used) ▪ Screenshots of the output (& input if required)	10	

PROJECT WRITE-UP		POINTS: 15
• Title, Student Name, Class	1	
• Project summary ○ Explain goal of program ▪ What did you measure? ○ Explain where data is from/how to get data ○ Explain progress as of submission	6	
• Project description ○ Explain what each class does in the program ○ Explain the key algorithm the program implements (Ex. ID3)	6	
• Citation ○ If outside libraries or references were used, they should be cited.	2	

POWER POINT PRESENTATION		POINTS: 15
▪ <u>Introduction</u> : Description of program, goals, possible uses, etc.	1	
▪ <u>Data</u> : Where it's from, how the program accepts and parses the data	3	
▪ <u>Algorithm</u> : How the program works with the data	3	
▪ <u>Pros and Cons</u> : How might the program be used in society either beneficially or harmfully	3	
▪ <u>Challenges</u> : I.e. issues with getting data, installing libraries, implementation, etc.	2	
▪ <u>Conclusion/Takeaways</u> ○ What surprised you (if anything) ○ What did you learn?	1	
• <u>Overall</u> : Opening/concluding slides, white-space balance, relevant pictures/charts, font uniformity etc	1	
• <u>Organization/Clarity</u> : Appropriate introduction, body, and conclusions; logical ordering of ideas; transitions between major points	1	

FINAL PRESENTATION – IN PERSON		POINTS: 15
• Content ○ Importance of topic, relevance, accuracy of facts, overall treatment of topic ○ Presentation should have clear purpose with examples, statistics, and support claims/conclusions with evidence	6	
• <u>Delivery</u>: Adequate volume, appropriate pace, diction, personal appearance, enthusiasm/energy, posture, effective use of visual aids • <u>Interactions</u>: Adequate eye contact with audience, ability to listen and/or answer questions	6	
• Audience ○ Student should be fully attentive while listening to others presentations ○ Student should provide least two questions or pieces of constructive feedback over the course of presentation	3
